

Registered Midwife

Family Health Midwives in Langley, BC is looking to expand. Interested applicants will need to apply for Fraser Health privileges before the **deadline of May 22, 2017** or have FHA privileges of their own already.

The Registered Midwife would be working in a shared call model, with room for flexibility. We are also open to discussing supporting someone in solo practice. We currently work in a small team, with approximately 6-8 weeks vacation time/year, as well as frequent days off within the group's call schedule to allow for satisfying work/life balance. We are looking for someone to start by early 2018, with the option to start in the fall of 2017 for the right candidate, with privileges in place. We are a supportive, collaborative practice and there is potential for long term employment.

The Family Health Clinic, founded in 1982 as a Naturopathic clinic, (with midwives since 1996) is situated in Langley, a fast growing area with many young families. We serve a diverse population including Karen refugees. We have a high number of repeat clients and a home birth rate that ranges from 20-30%. Langley Memorial Hospital is our primary site with Surrey Memorial Hospital (our regional center) serving as our backup and we work closely and collaboratively with a small group of specialists.

The Fraser Valley is still quite rural with a variety of organic farms, wineries and markets, opportunities for horseback riding, hiking, canoeing, close to camping, skiing and more! And only 30 minutes from Vancouver to provide the perfect balance of city and country.

General registrant preferred at this time, however, New Registrants are welcome to apply.

We would love to hear from you. Please submit a resume with cover letter by **June 15, 2017** to:
