

Arbutus Midwives
19 August 2017

We are seeking a locum to cover a one-year leave at our three-midwife practice in Langford, about 10km outside of Victoria, BC.

Ideally we would like someone to begin in mid-February or March of 2018 and stay with us for one year; there is some flexibility with start dates if necessary.

About our practice:

Arbutus Midwives are a busy three midwife team, working in a shared care model. We hold privileges at Victoria General Hospital for all of our hospital births (a tertiary care hospital with 24-hour obstetric coverage and a level 3 NICU). The locum would work full time (average of 4 due dates per month) with regular off-call and holiday time.

We share a space with a wonderful team of RMTs, an acupuncturist and a chiropractor who specialize in maternity, postpartum, and newborn care, and who have gained quite a bit of experience in treating sore, tired midwife muscles. We have excellent administrative support, and use Oscar EMR for charting and billing.

Our clientele tend to be young, and some are socially complex. We work with a wonderful blend of nullips and multips with many delightful repeats.

For more information about our practice, please visit www.arbutusmidwives.com.
For more information about our larger clinic, please visit www.pureelementswellness.ca.

Please send CVs and/or questions to info@arbutusmidwives.com by September 4, 2017.
