

LOOKING FOR A LOCUM, BLOSSOM BIRTH

Blossom Birth is an established practice in Richmond, BC, specifically the lovely area of Steveston Village. We have a diverse client base and many repeat clients. We run regular antenatal/postnatal clinics with the option of facilitating Connecting Pregnancy Groups for our clients. We generally do 24hr call shifts with regular protected off-call time and vacation.

We are fortunate to practice within an excellent health region (Vancouver Coastal Health) that is supportive of midwifery care. We have strong collegial relationships with the obstetric providers and nurses at Richmond Hospital. Our excellent office administrator works full time enabling us to concentrate on clinical issues.

We are looking for a locum to cover an approximate one year extended leave from April 1, 2018 with an opportunity to apply for active privileges in the future and continue on as a practice partner with initiative to grow the practice. The application deadline is December 15th, 2017.
