

Part-time midwife for Halifax, NS

The IWK Community Midwives are looking for a Registered Midwife to join our team! Currently, we are a team of six registered midwives. We are one of three midwifery sites in Nova Scotia, serving the diverse and growing population of the Halifax Regional Municipality.

We are practicing as primary care providers in the Canadian Model of Care with a case load of 3-4 clients per month, per midwife. Our community clinic is located in Dartmouth. We are employed by the IWK Health Centre, and therefore we offer our clients hospital birth at the IWK, or home birth should they choose/meet the low risk criteria.

The IWK Community midwives enjoy an exceptional relationship with our healthcare colleagues, we are well integrated and respected members of the maternity care team in the hospital and in the community. For home births, we have additional support from a well established RN second attendant program.

Halifax is the largest city in Atlantic Canada. It is home to six universities and is well known as a vibrant and diverse community with a large variety of national and international cuisine, local organic restaurants, farmers markets, and a wide range of recreational and cultural activities and events to be enjoyed by the whole family.

Only a short drive away and you will find yourself outside of the city in beautiful rural Nova Scotia. There you will find sandy beaches, beautiful coastlines and charming fishing villages. Enjoy endless opportunities for sailing, kayaking, hiking, biking or just taking in a breath taking sunset.

If you would like more information, please see detailed job posting at:
