Other Information

We are a group of 3 full-time midwives serving the families in the Fraser Valley since 2007. We hold privileges at both Abbotsford Regional and Chilliwack General Hospitals. We serve a diverse population and are all passionate about home birth! Our clinic is located in a beautiful home just one block from Abbotsford Hospital. We have the privilege of working with a supportive collaborative group of midwives, gp's, obs and maternity nurses. Abbotsford Regional is a beautiful new single family centered maternity unit opened in 2008.

Fraser Health has just announced the decision to open up new grad positions in our community and we couldn't be more pleased!

We have an ever-increasing wait list and would love the opportunity to accept more women into care as we continue to promote the midwifery model of care and increase awareness in our community.

We have full-time admin support and run on Oscar for EMR. We are currently working in a team of 3 but are keen to split into 2 teams of 2. We value work/life balance and allow adequate time off call and vacation time. We support each other and meet weekly to chart review. We also have regular peer review with other midwifery practices in the Valley.

I would like to offer mentorship for a period of one year to the successful applicant and encourage you to explore this unique opportunity to work with our team in an established midwifery practice. I graduated from the UBC program in 2005 and have had the privilege of precepting many students over the years.

If you are interested time is of the essence. Please send me your CV and letter of interest ASAP.

Check out our website and Facebook page so you can take a peek at who we are and what we've been up to.
