Other Information

Clinic: Heartwood Midwifery

Location: Salmon Arm, BC

Start date: As soon as possible

Application will remain open until the position is filled

Heartwood Midwifery is seeking a long-term practice partner for a growing Shuswap-based midwifery practice. At current, Heartwood is a solo practice with 3-6 clients due per month. Ideal candidates would share the practice's goals of close GP/RN collaboration and have a passion for rural maternity care. This includes an interest in areas of midwife expanded scope or existing skills in these areas.

Salmon Arm is a dynamic rural community without local specialist support. Advanced obstetrical support is provided by GP's providing primary care as well as 3 general surgeons who provide c-section coverage. As such, this midwifery practice works closely with the family physician group who deliver obstetrical services to provide a well-rounded service base for the community and outlying areas.

As a community, Salmon Arm is a growing location for young families and professionals with a total population or catchment of around 30,000. Weather is mild in most seasons with neighboring communities famous for lake activities and renowned wine country in the Okanagan. To the east, Revelstoke offers world-class alpine activities in all seasons.

New registrants are welcome to apply, but previous experience in a rural setting is an asset.

Please send complete curriculum vitae with a cover letter to Ariel Christman at heartwoodmidwifery@gmail.com
