

Come work with us in the beautiful, fast-growing BC lower mainland!

Haven Midwifery (est Dec 2016) is hiring a new midwife for 2019. This opening is available for September 2019 and ideally we are looking for someone interested in long-term practice.

We are a thriving practice of three full-time midwives with a full caseload (5 per midwife) booked for 2019. Most months currently have a waiting list, so there may also be a possibility to work with us in a supported solo capacity, or a team of two as well. We are currently working towards being a collective of midwives with shared responsibility within the team. As such, there is the room to work together to create a schedule that works with everyone's needs in mind, to optimize work-life balance.

Located in the heart of Cloverdale, our holistic midwifery practice is also home to a naturopathic doctor (Dr Pamela Smith), who specializes in fertility care, and prenatal/family care, as well as a massage therapist (Amanda Logan, RMT). We have a beautiful clinic space for the midwives, we have doula-facilitated events, breastfeeding classes being taught out of the clinic, and more exciting social opportunities coming. We are expanding to open a 3rd clinic room to attract more pregnancy wellness experts into our clinic.

Midwives are highly integrated into Surrey Memorial Hospital: a level 3 facility with forty (40) private delivery rooms. We have our own call room; we have excellent relationships with hospital staff, and we are well supported by the OB and pediatric call groups. We are looking for someone who would be a good fit for our growing practice, and would love to hear from you!
