

Registered Midwife

Midwifery Care Partners

Location: Edmonton, Alberta

Midwifery Care Partners is one of Edmonton's pioneering midwifery practices. Owner/Lead, Barbara Scriver is retiring and the practice is ready for an eager midwife to take on clinical care of clients while Barbara continues management of the practice and support for her replacement.

The plan going forward is to have a second midwife join the practice pending approval from Alberta Health Services.

The clinic space is located in a quiet strip mall with south facing windows, lots of plants, a play area for the children, large reception area, lending library, two midwife offices, an exam room, two bathrooms and a storage area.

The practice fee will provide a furnished office, midwifery disposables, office equipment and supplies. The midwife will access clients through the Client Management System as well as having a large base of Midwifery Care Partners repeat clients, many of whom choose home birth.

Midwives in Alberta are transitioning into a billing system and will be able to bill up to 40 clients per year at a pay rate of \$4,600 per client. Expenses for the midwife will include fees paid to the College of Alberta Midwives, the Alberta Association of Midwives, yearly registration fees for NRP, ESW, etc. and a \$300 back-up fee for the second midwife at the birth.

The Edmonton Zone midwives are a collegial group that hold monthly meetings and willingly support one another as back-up for home births, Lucina Birth Center births and hospital births.
