

## *West Country Midwives*

### **Job Opportunity**

West Country Midwives is seeking a Midwife to join our team July 2020. We are a busy rural practice based out of Rocky Mountain House, AB. We care for approximately half of the pregnant people in our community. We currently have two teams of two, that provide care in Rocky Mountain House at our clinic, as well as at a clinic space in Drayton Valley and at O'Chiese, Sunchild and Big Horn First Nation Health Centers.

We will be moving into a new clinic space in April 2020 that will include two clinic rooms, a group class space, office/staff space, and separate birth space with built in birth pool.

We are part of an alternative model that is funded through AHS. We are looking for someone who would like to work fulltime. Funding will include continuity clients, drive time to remote clinics and rural home visits, teaching, breastfeeding consults, and other programming that meets the community needs and is within midwifery scope.

The successful candidate must have a strong work ethic, be flexible and understand the needs of being a rural midwife. We prefer a midwife with experience but are open to a New Registrant if it is a good fit. Strong emergency skills is essential as we are often working remotely or in a Level 1 C facility without access to specialists. We have privileges at Rocky Mountain House Healthcare Center which is a 1C Hospital that usually has C/section privileges. We also have privileges at Red Deer Hospital which is a Level 2 facility with Obstetrics and Pediatrics.

Rocky Mountain House is a great small community of 7500 people. We are 1 hour away from the Rocky Mountains and have several local lakes. This is a great area for outdoor enthusiasts who like to do things like hike, camp, ski, canoe, hunt and so much more. We have lots of local groups who do theater, music, and dance. We have a great fitness facility and lots of gyms and yoga studios. There is a niche for almost everyone.
