Generations Midwifery

Wanted: two awesome full-time midwives

Do you want to work in a practice with regular spa retreats? With hiking and yoga expeditions? Massages between clinic visits? So do we! We haven't quite figured that bit out... 😊

Details

Brockville General Hospital: Level 1
Ottawa Birth and Wellness Centre

40-55% planned out-of-hospital birth

Start date

between December 2019 and January
2020 with primary births starting
February 2020..

We **are** a fun, friendly, flawed, supportive practice seeking two **full-time** midwives for a **one year + contract with possibility for extension**. We believe in supporting each other to live our best lives, supporting our clients in decisions that are best for them, and creating balance as much as possible.

Community

Brockville is a small town on the St. Lawrence river surrounded by green space, parks, farms and quaint villages. We are a short one hour hop from Kingston and Ottawa, Five cars in a row is considered a 'traffic jam.' Tend to speed to births? No worries, we probably caught the police officer's babies. Small town midwifery builds community quickly!

Hiking, camping, cycling, scuba, speed skating, run clubs, yoga, climbing, it's all here.

We have a clinic in Brockville and one in Kemptville approximately half way between Brockville and Ottawa. This position will support the both locations.

Hospital and team

We enjoy excellent relationships at our local level-1 hospital with OBs, nurses and pediatricians, including the occasional sushi night. We run oxytocin, will likely get epidural privileges soon-ish. and generally feel part of the hospital team.

We'd love to have a conversation with you about becoming part of our team. We are open to co-creating a team that works for everyone.
