LOCUM POSITION

Sudbury Community Midwives is offering a locum midwifery position October 2020-January 2022; there is flexibility in the start date, and both General and New Registrants will be considered for the position.

Established in 1993, our practice of 11 midwives serves a mixed urban and rural population in northern Ontario. Our diverse client population includes many Franco-Ontarians, Indigenous peoples, and newcomers to Canada. Approximately 30% of our births take place in out of hospital settings. Midwives are credentialed at Health Sciences North, and are able to practice to the full extent of the scope of Ontario midwifery. We are a committed teaching practice, and are affiliated with both the Ontario Midwifery Education Program, and the Northern Ontario School of Medicine. You can meet the midwives of our practice at sudburymidwives.com and information about our community can be found at <https://discoversudbury.ca/discoversudbury/assets/File/VISITOR%20GUIDE.pdf>

The ideal candidate for this position will be a team player with strong critical thinking skills, who enjoys all four seasons that Canada offers. While this is a full-time position, flexibility in monthly caseload is essential. New Registrants can be assured of dedicated mentoring and support provided by experienced practitioners.

Interested applicants should submit their CV and letter of interest to the email address above.
