604-534-9121 ext.3

Family Health Midwives has a vacancy for a **Full-Time Midwife for February/March 2021.**
There is some flexibility with the start date for an applicant that is a good fit for our team!

The position is for a 1 year contract, with possibility to extend into a long-term position.

Family Health Clinic was founded originally in 1982 as a naturopathic medicine clinic, and added Registered Midwives in 1998. The clinic is situated in central Langley, in the Fraser Valley, a fast growing area with many young families. The Fraser Valley is still quite rural with a variety of organic farms, wineries and markets, opportunities for horseback riding, hiking, canoeing, close to camping, skiing and more! Langley is only 45 minutes from downtown Vancouver, for the perfect balance of city and country.

Family Health Midwives work in a small team model, with a shared caseload of 3-4 EDD's per midwife. Our team is committed to maintaining a satisfying work/life balance, working 1 day of clinic and 2-3 days of call each week. The midwives enjoy 24hr call shifts with the occasional 48hr shift, and 6-8 weeks vacation/year is encouraged. Our team uses electronic charting and faxing, and is well supported by an MOA 3 days/week.

The successful candidate will initially be eligible for temporary privileges through the Fraser Health Authority, until provisional privileges can be applied for. Our primary site is Langley Memorial Hospital, where the majority of our clients choose to birth. Surrey Memorial Hospital serves as the team's regional center and back up site.

The midwives enjoy many repeat clients and a home birth rate of 20%. The midwives work closely and collaboratively with a small group of local specialists, and feel very fortunate to have such a positive and supportive work environment in their local hospital!

Initial remuneration will be according to MABC locum fee guidelines of 70% of their portion of the total billings. Midwives joining the team on a longer term contract will be paid their full portion of billings based on points/percentage minus overhead fees.

Preference will be given to a General registrant with minimum 1-2 years practice experience in a continuity model similar to that in BC. However, New Registrants are still encouraged to apply!

We would love to hear from you if you think our team and the lovely Fraser Valley could be the place for you! Please forward your CV or any inquiries to:

familyhealthmidwives@gmail.com

Applications will be considered until the position is filled.

Cathy Carlson-Rink ND, RM
