Hello Midwives:

We are looking for one or more midwives to join our practice at **Sina Health Centre** in Downtown Vancouver.

We are currently a team of six family doctors, two specialists (Internal Medicine and Gynecologist), one naturopathic doctor, one registered clinical counsellor, and two pharmacists. We would love to find one or more midwives to complete our team of healthcare professionals.

We have interests from patients and will likely have good number of referrals to anyone that joins our team. We will carefully consider all applicants though, so if you have a strong interest to be part of our team, we would also love to hear from you!

We currently use OSCAR EMR, and we have full time MOA support 7 days a week. Ideally applicants could be able to start March 2021, but we can explore flexibility with the right person!

Please submit your CV with a brief description of your interest to med@mysina.ca, and we will be in touch very soon!
