Other Information

Hello midwives,

Mighty Oak Midwifery Care in Kamloops is seeking a short term locum (3-6months).

The locum will be covering for an unexpected medical leave, as such the start date is ASAP. Ideally starting clinic and on-call coverage in April or May 2021.

The locum midwife will be working in a primary care model within a supportive group of 5 midwives. Full-time caseload (4-5 clients per month) with scheduled off-call days and vacation time. Our homebirth rate is approximately 30%. We have a lovely clinic space that also houses group prenatal classes. There is MOA support 20 – 25 hours per week.

Royal Inland Hospital is a Level 2 hospital with 1100 – 1200 births per year. Kamloops is a regional hospital serving many rural communities in the area, as well as a large First Nations population. Midwifery services here were established in 2008 and we have good working relationships with our consultants and nursing staff. There are three approved second attendants in our community; all nurses from LDR or NICU.

Payment will be negotiated in accordance with the MABC locum guidelines.

Please get in touch with any questions!

Thank you,

Josée Gervais, RM
