

WHITE ROCK/SURREY: MIDWIFE NEEDED

Guaranteed income with pay well above locum guidelines!

Semiahmoo Midwives is looking for a locum or long-term practice partner who enjoys working on a busy shared care team.

Start Date: Flexible

Our practice:

Semiahmoo Midwives work in a shared-care model with an average of 17-20 EDDS per month. We pay when you carry the pager, so income is guaranteed.

In addition to 4-5 days of clinic per month and rotating second call, we work 12-24hr shifts and are flexible with the number of shifts per month a new member requests (ex. 6-9 24hr). Our schedule is designed to reduce burnout and good relations with a neighbouring practice allows less second call. Each midwife has covered vacation time. We also offer competitive benefits to both midwives and employees.

Semiahmoo Midwives is well-established in the community with mostly referred or repeat clients. We are committed to continued education and skills improvement with 3 surgical assists, 2 fetal health surveillance instructors and 1 neonatal resuscitation instructor in our practice. Our waitlist is long and we strive to provide care for all members of our community desiring midwifery care.

Our Clinic:

Semiahmoo Midwives work out of a newly renovated clinic space in Rosemary Heights, South Surrey. We have two MOAs providing full time clinic management.

Our Catchment Area:

We serve White Rock and South Surrey but also care for patients in North Surrey, Delta & Langley.

Our primary site is Peace Arch, a level one hospital. This is a fantastic community hospital that is supportive of midwifery care. Our secondary hospital is Surrey Memorial, a tertiary level hospital with a large NICU.

This growing area is a truly great place to live and work with lots of amenities, schools and a variety of restaurants. With many beaches and parks nearby, including Crescent Beach and the White Rock Pier, there is ample opportunity for outdoor activity. This is especially useful during this pandemic.
