

West Hill Midwifery

4205 Johnson Rd, Prince George, BC, V2N6E7 Fax: 844-644-3171 Phone: 236-601-1515

West Hill Midwifery in Prince George, BC is actively recruiting for a midwife to join our busy practice. We are currently a practice of two experienced midwives who are seeking a third midwife to join the team.

Sarah has been practising in Prince George for 10 years and is the current Division of Midwifery head, she is also an MESP instructor and UBC instructor. Rachel was a midwife in the UK from 2002 prior to emigrating to Canada in 2019.

Prince George is the regional centre for the North with a population of around 74,000. We benefit from a variety of shops, restaurants and leisure activities. Life often centres around the outdoors with our own ski hill, cross country skiing centre, hiking trails, lakes for swimming, fishing and boating. There is also an active arts scene and in non-Covid times the CN centre hosts big name concerts and shows. We are only a 75 minute flight to Vancouver, Victoria and Calgary for when the big city calls... Prince George is a very affordable city with average house prices around \$300,000-400,000.

UHNBC offers a modern facility with very supportive midwifery, medical and nursing colleagues. There is 24 hour coverage from obstetric, pediatric and anaesthetic specialists. The hospital has integrated waterbirth and we have a 20 percent home birth rate. Demand for midwifery care is high in Prince George, we have many repeat clients with waitlists every month.

We are open to a variety of team models, various call schedules and fair compensation with minimal overhead. As a practice, we mentor students, seek out teaching and learning opportunities, support the expansion of midwifery in the north and support our midwives to pursue a healthy work/life balance. The practice is supportive of midwives in attaining their personal or professional goals.

We welcome experienced and newly registered midwives to apply. Rural experience is an advantage. The ideal candidate would have good organizational skills, a strong work ethic and be familiar with/willing to learn OSCAR EMR. We have excellent administrative support from our MOA who works remotely.

There are full-time privileges available in our community. Locum opportunities may also be available. If you are interested in locuming in Prince George please also get in touch.

For more information about our practice, check out www.westhillmidwifery.net or find us on Facebook. To apply directly to West Hill, please email your CV and cover letter including references to office.westhillmidwifery@gmail.com. Applicants will be contacted shortly.
