

OUR COMMUNITY

Pomegranate is located in the dynamic and diverse community of Hastings Sunrise in East Vancouver. Alongside our growing community, we are experiencing an exponential growth in demand for midwifery care. While enjoying the big city benefits, we are literally only minutes away from forest and ocean adventuring.

OUR CLINIC

We have four established teams that provide extensive support to each other, including and especially while oncall.

For potential applicants who are new registrants, new to BC, or new to Vancouver, our clinic is experienced in providing in-depth mentorship.

Our EMR is OSCAR; previous knowledge is an asset but not an expectation.

We have a strong admin team that takes care of scheduling clients, booking US, etc.

Our allied healthcare providers – RMT, RPT & RCC – provide additional client care as well as ongoing collegial learning.

OUR TEAM

We are a medium-sized, shared-care, community-based team, with an emphasis on a manageable caseload balanced between homebirths and low-risk hospital births. Our schedule is flexible, depending on the team members' needs.

POMEGRANATE MIDWIVES

OPENING IMMEDIATELY in Vancouver
Are you looking to experience working and living on the West Coast?

TIMING

We cannot keep up with the demand for care in our community: we are overbooked and looking for help! Start date is flexible: as soon as July, preferably by September.

JOB DESCRIPTION

This position is flexible – whether you are looking for a short-term locum or a permanent position, interested in fulltime or parttime – feel free to let us know. We are especially in need of fulltime coverage from September through December.

HOSPITAL PRIVILEGES

This team is based out of BC Women's Hospital. Pomegranate midwives have been delivering there for over fifteen years and have built a strong foundation of relationships with nursing, obstetrics, and pediatrics. As a tertiary-care level hospital, BCWH provides a full-service location for birthing clients, with an experienced complement of nursing staff and consultants who are able to handle all levels of care. Of particular interest to midwives, this includes multiple obstetricians supportive to vaginal breech birth. You would be walking into a team that is known as a strong and respected presence at this hospital. Privileges would be available through the Caseload Assistance Program.
