

LOCUM OPPORTUNITY:

January through March 2022
(exact start and end dates TBD)

This three-month locum position provides holiday coverage on a team of three midwives. Call shifts are 24 and 48 hours, with morning handover. Caseload is 10-11 EDDs per month shared by the team. Remuneration is per MABC locum rates.

The Midwifery Group is a supportive practice located in a sweet and cozy store-front location on Main Street in Vancouver, British Columbia, in a mixed neighbourhood close to the hospital, allied health providers and awesome restaurants. We practice at BC Women's Hospital and in Vancouver. Established in 1998, we have a strong presence in our community and relish the diversity of our clientele. We believe in supportive sustainable models of practice and we strive to maintain a healthy work-life balance. Our clinic currently operates with two teams of midwives that meet regularly for clinic meetings and help each other in times of need.

We are well-supported in the clinic by a wonderful trio of office managers for our administrative needs, dedicated billing, and practice owners who are also working midwives in the community. We use OSCAR EMR for our charting; experience with this is an asset.

Our team values our cooperative working relationships with each other and our perinatal care colleagues. The ideal candidate is an adept team player with a collaborative and reliable work ethic, a strong communicator actively working to support inclusivity, and committed to providing exemplary midwifery care.

Applicants must be eligible for registration with the BC College of Nurses and Midwives and the Midwives Association of BC, and be members in good standing. We can support accessing temporary or locum hospital privileges at BCWH if you do not already hold BCWH medical staff privileges. There is a possibility of becoming a fourth team member longterm for the right fit.

Please submit your CV, three references, and a letter of introduction to
rachel.babycatcher@gmail.com

We look forward to hearing from you!

Team 3 at the Midwifery Group
