**Contact Phone**

(604) 877-7766

**Other Information**

**We are seeking a Registered Midwife to join our clinic in a postpartum only practice. This position would ideally be a blend between postpartum care for OB clients and providing Lactation Services for the greater community.**

**The midwife needs to be eligible for registration by the start date or already registered with the College of Midwives of BC (BCCNM) and the Midwives Association of BC. It would be ideal (but not required), for the applicant to have hospital privileges at BC Women's or St. Paul's Hospitals. The teams at TMG can provide early hospital visits, discharges or postpartum hospital admissions as needed. It would also be ideal if the midwife held a lactation consultant (LC) certificate or was an experienced midwife. As the clientele grows it could become a shared position between 2 midwives and provide room for creative ideas. This position would be remunerated with postpartum billing codes and consult codes.**

**\*Start time is flexible - Immediately to Early 2022.**
