

**COLLEGE OF NURSING  
RADY FACULTY OF HEALTH SCIENCES  
ASSISTANT or ASSOCIATE PROFESSOR POSITION**

The College of Nursing, Rady Faculty of Health Sciences, is seeking applications from outstanding candidates for a Bachelor of Midwifery program tenure track or tenured position (31222) at the rank of Assistant or Associate Professor. Qualified candidates will possess substantive knowledge and experience in the Canadian model of midwifery. Expertise in Indigenous health and Indigenous pedagogy is preferred. Rank and salary will be determined based on qualifications and experience.

**COLLEGE OF NURSING PROFILE:**

The College of Nursing is one of five colleges within the Rady Faculty of Health Sciences (RFHS) at the University of Manitoba. The College of Nursing offers both undergraduate and graduate programs. The Bachelor of Nursing (BN) program is a concept-based curriculum and offers state-of-the-art simulation learning. The BN program is also delivered in partnership with the University College of the North in The Pas and Thompson. A new Bachelor of Midwifery program has been launched. The Mahkwa omushki kiim (Pathway to Indigenous Nursing Education) provides nursing students with Indigenous ancestry with academic and personal supports to facilitate success. The University of Manitoba Access Program provides holistic support to midwifery students. Preference is given to Indigenous peoples (Status, Non-Status, Inuit and Métis), residents of Northern Manitoba, low-income earners and newcomers.

At the graduate level, the College of Nursing offers a Master's Program with four streams, including Nurse Practitioner (NP), administration, education and clinical practice streams. In addition, the College offers a PhD in Nursing Program.

The Manitoba Centre for Nursing and Health Research (MCNHR) is a research unit within the College of Nursing. The MCNHR is the only research centre in Manitoba that is solely dedicated to facilitating and supporting collaborative nursing and health research. The College has clinical practice and research links with other universities nationally and internationally and with a number of research institutes in Manitoba. We are proud of our two Research Chairs: a Canada Research Chair in Child and Family Engagement in Health Research and Healthcare; and a Clinical Scientist, Canadian Child Health Clinician Scientist Program, as well as our Health Sciences Centre Clinical Chair.

The College of Nursing has a strong commitment to the Indigenous community, to accessibility and diversity, and to a wide range of practice environments. The College of Nursing also facilitates Clinical Competency Assessments for the College of Registered Nurses of Manitoba. Visit our website at [umanitoba.ca/nursing](http://umanitoba.ca/nursing) for more information.

**ASSISTANT PROFESSOR:**

The responsibilities of this position include teaching, research and service. The successful candidate will teach courses in the Bachelor of Midwifery program, using onsite or various distance educational modalities. The successful candidate will participate in the education of graduate students through thesis/capstone project supervision. The successful candidate will develop and maintain an ongoing program of funded research. Evidence of scholarly and research activity may take the form of funded research, peer-reviewed publications in reputable scholarly journals, invited papers delivered to academic or professional research projects, and/or other scholarly activities. The successful candidate will provide leadership in service to the College, University, and professional /academic committees and activities; and where relevant, practice in an

area of clinical expertise as required.

**Qualifications:** A PhD in a related health discipline and registration with the College of Midwives of Manitoba are required. Additional qualifications include evidence of a beginning program of research and scholarship, including funded research and peer-reviewed publications, as well as evidence of previous effective teaching. The applicant will possess strong communication skills, the ability to establish collegial relationships, and clinical expertise as relevant. Work experience with Northern communities is an asset.

### **ASSOCIATE PROFESSOR:**

The responsibilities of this position include teaching, research and service. The successful candidate will teach courses in the Bachelor of Midwifery program, using onsite or various distance educational modalities. The successful candidate will participate in the education of graduate students through thesis/capstone project supervision. The successful candidate will carry out independent research, as well as work effectively in research teams. Evidence of the required level of research activity and scholarship may include an established independent research program which goes beyond the work of their PhD degree; the impact, quality, originality and number of publications; a track record of research funding; the amount and quality of research in collaboration with external partners; and mentorship of colleagues to increase their research skills and outputs. The successful candidate will provide leadership in service to the College, University, and professional /academic communities, committees and activities; and where relevant, practice in an area of clinical expertise as required.

**Qualifications:** A PhD in a related health discipline and registration with the College of Midwives of Manitoba are required. A proven track record of excellence in teaching, course development and supervision at undergraduate and postgraduate levels, and a relevant clinical background is required. Applicants must have evidence of a well-developed and established program of research in a particular health-related area, current, competitive national grant funding, strong peer-reviewed publication track record, and an established national reputation. There must be evidence of a capacity to build and maintain strong relationships through all levels of professional engagement with partner organizations and demonstrated ability to supervise research students and research projects. The applicant will possess strong communication skills, the ability to establish collegial relationships, and clinical expertise as relevant.

**Start Date: April 1, 2022 or as soon as possible.** For clarification or information about this position, please contact Dr. Netha Dyck, Dean, College of Nursing, at [netha.dyck@umanitoba.ca](mailto:netha.dyck@umanitoba.ca)

Closing date for applications is **November 30, 2021**; however, applications will be accepted until a suitable candidate is appointed. Applications addressing the general qualifications, including a curriculum vitae, a statement of research and teaching interests, and contact details of three references should be sent to **Dr. Netha Dyck, Dean, College of Nursing, University of Manitoba ([acadnurs@umanitoba.ca](mailto:acadnurs@umanitoba.ca))**.

The University of Manitoba is strongly committed to equity and diversity within its community and especially welcomes applications from women, racialized persons, Indigenous peoples, persons with disabilities, persons of all sexual and gender identities, and others who may contribute to the further diversification of ideas. All qualified candidates are encouraged to apply; however Canadian citizens and permanent residents will be given priority.

If you require accommodation supports during the recruitment process, please contact 204-474-7195 or [UM.Accommodation@umanitoba.ca](mailto:UM.Accommodation@umanitoba.ca). Please note this contact information is for accommodation reasons only.

Application materials, including letters of reference, will be handled in accordance with the protection of privacy provision of The Freedom of Information and Protection of Privacy (Manitoba). Please note that curriculum vitae may be provided to participating members of the search process.
