

New Registrant position with possibility for permanent position pending funding

Who we are:

We are a team of seven Registered Midwives, working as a cooperative, in the inner-city of Edmonton, Alberta. We intentionally provide care for underserved clientele and families, and in all our interactions aim to provide **evidence-based** care that is respectful and inclusive of all people. We welcome families of any gender, sexual orientation, family structure, faith, age, cognitive or physical ability, socio-economic status, or ethnic background.

We work as a cooperative because we believe in an equitable practice model that supports healthy work life balance. We work in both shared call models as well as supported primary.

The Cooperative serves Edmonton and the immediate surrounding areas. Our privileges are at the Misericordia Community Hospital and the Royal Alexandra Hospital. We practice full scope and have good working interprofessional relationships at both sites.

We are looking for a Midwife with:

- Strong communication skills
- Strong inter professional skills
- Experience both in the hospital setting with epidural and oxytocin and out of hospital
- Committed to continued education around anti oppression, inclusivity, trauma informed care and harm reduction

A love of plants, good food and a great sense of humour is an asset!
